### Applying for Scholarships

Private scholarships are one tool to help make college or training after high school more affordable. Businesses, organizations, and colleges award scholarships to students for community service, good grades, athletic ability, or a variety of other qualities or activities.

Students in Washington can create a profile on [theWashBoard.org](http://theWashBoard.org) to be matched with potential scholarship opportunities. The site is spam-free and will never sell your information.

### Youth Hand In Hand\*

A group of high schoolers in the Clark County Area of Washington state, providing free virtual classes!

Youth Hand in Hand is a nonprofit organization committed to giving all students an equal opportunity to learn and succeed, both inside and outside school. We believe that we can lessen this gap through free online classes, with people to guide them along every step of the way.

## \*\*\*Weather Guide\*\*\*

### SCHOOL CLOSURES & LATE STARTS

When inclement weather occurs, it may be necessary to implement a two-hour late start, snow bus routes, or a school closure. Student safety is our primary concern when making these decisions. ***Please use your discretion.*** Even if a school is open, parents and guardians may use their own judgment whether it is safe to send their children to school. Weather-related absences are excused when reported to the school by a parent or guardian.

### Late Starts:

In the event of a late start, school begins two hours later than normal. If a weather-related, two-hour late start occurs on a **Wednesday Late Start day**, the teacher collaboration time will be canceled and school will start two hours later than the regular (Mon/Tues/Thurs/Fri) start time.

### Telephone Notification:

- ♦ Automated phone calls and emails are typically delivered between 5:30 and 6 a.m. ***Before the snow falls***, please update your telephone number in Skyward or with your school office.
- ♦ Information Line: (360) 885-5343. Call for updates.

### Online and Media:

### Split District:

## Apprentice to Become an Electrician

An electrical APPRENTICE is someone who is learning the electrical trade while supervised on the job and through related classrooms instruction. Once accepted into our apprenticeship program, we will provide you with two weeks of Basic Skills training. We will then place you with an employer and you will earn wages, health care benefits, and retirement benefits.

Pre-Apprenticeships expose students to different building trades and help students become familiar with terminology, hand and power tool use, job expectations, construction safety, and more.
